

At 4thSeed**Designs** we highly value people, the environment and the quality of our product.

This means that every shirt we print is done with a socially responsible approach. From the work conditions of those who make the shirts, to the ink we use, all the way up to the relationships we have with those using our print set up.

### **Socially Responsible**

(safe, fair, humane working conditions)

### **Environmentally Friendly**

(0% Waste Disposal)

### **Australian Owned**

(printed, produced in South Australia)

### **Non-Toxic Ink**

(Water based, Skin friendly)

Our core values shape everything we do and tend to resonate with those who chose our **WhiteLabel Bulk** printing options. We trust these things strike a chord with you too.

**Helping Others** - Every choice we make must have the byproduct of helping others. We aim to build people up, help people grow because people matter.

**Authentic Connection** - We seek to create opportunities that encourage dialog and conversation about deeper things. Using our creativity to foster real relationships.

**Ethically Driven** - We are responsible to care for the world we live in & are committed to find sustainable ways to produce quality products, without costing the earth.

**Inspiring Creativity** - It is crucial that our designs and relationships grow & inspire others. Our hope is to see each other release our creativity & dream up new ways to help others.

Below you will find our **two options** for shirt printing with 4thSeedDesigns, **Green** and **Gold**, each explain the process and why the price difference.

Being completely **Green**, ethical, eco friendly with **0%** waste disposal and non-toxic ink, is great for the world and our most holistic option. We use premium AS Colour shirts and Direct To Garment digital printing, allowing us to print non-toxic ink with absolute precision and absolutely no waste. This option cares for the worker and the world, and provides buyers with a high quality product.

However, we understand that not everyone is able to afford the complete holistic approach, it simply costs more to care for *everything* as well as we would like.

So we have created an option that is **Gold** because it is a lower cost option that still cares for the people behind the shirts. This option uses socially responsible shirts from Ramo (or AS Colour shirt for an additional \$4 per shirt) that are all still printed here in South Australia. The main difference with the Gold option is the printing process. We use screen printing and screen printing ink which is different to DTG ink. After the initial set up, the printing itself is very cost effective when doing large bulk printing.

Both options produce great shirts, comfortable and guilt free.

We are dedicated to finding creative ways to care for others and for the generations to come. We are also committed to producing the best product we can, at the best cost, in hopes to actually be helpful to you the buyer, enabling your creativity and dreams to be seen.
